EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mike Zall on 8/16/2005.

In the Specification:

On page 7, lines 5-8, change the formula to read as follows:

(propylene oxide)

On page 7, lines 13-16, change the formula to read as follows:

(Octyldodecyl PPG-3 Myristyl Ether Dilinoleate)

In the Claims:

Cancel claims 1-11, 13 and 14.

The following is an examiner's statement of reasons for allowance:

The prior art, including an updated search, failed to uncover a reference that either taught or motivated those of ordinary skill to modify any disclosed compound in order to provide the compound PPG-3 Myristyl Ether Dilinoleate, as recited in claim 12. The amendments to the specification merely correct obvious errors in connection with the preparation of this compound. In this regard, those of ordinary skill would understand the structure of the claimed compound based upon its name, and its preparation set forth in the specification at page 7.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
